## Our History

Supply Oilfield Services, Inc. (SOS) takes its roots as a company specializing in manpower services since 1970's.

The Company started mainly in providing logistics support, skilled personnel and services to foreign and local companies engaged in the exploration and development of oil & gas resources in the Philippines and overseas.

The Company consists of different business segments, each dedicated to handle projects and client support. Flexibility is one of the Company's key- we offer assistance which goes beyond the scope of work.

Throughout the years, SOS became the reference company for support services, overseas personnel development and catering.

## An Integrated Support Services Company

The ability to consistently demonstrate its corporate philosophy of providing world-class quality service is the key element for the Company's success in maintaining a prestigious, outstanding, competitive and reliable service group.

With it's top of the line support services which have been in the business for more than 40 years, SOS have managed to maintain and preserve it's success and continuously improve on its goal to becoming the GOLD standard in its support services.

SOS also holds two licenses with the **Department of Migrant Workers (DMW)**:

- **Land-based:** Supply Oilfield Services, Inc. (**SOS**)
- **Sea-based:** Supply Oilfield & Marine Personnel Services, Inc. (**SOMPS**)

Land and Sea base licenses allows us to deploy personnel for any kind of project, both on-shore and off-shore.
